

Dear Event Organizers,

I am immensely honored to have been recognized with the ICON Award at the Family Office Round Table (FORT) North America 2023 event. The award symbolizes the collective strive towards a more ethical and transparent financial landscape, which I am proud to be a part of. Beyond the personal recognition, this award instills a deeper sense of responsibility towards advancing sustainable finance on a global scale.

Moreover, I am deeply thankful for the opportunity to have been a panelist on the "The Nexus of Private Capital and Sovereign Wealth Funds and Public Funds" panel. The discussions were instructive and the exchange of ideas was stimulating. Being on the platform with other honored panelists allowed me to both share my experiences and acquire their perspective. This will undoubtedly enrich my ongoing research and advocacy in sustainable finance.

The seamless organization and the high caliber of discussions during the event reflect the exceptional efforts put in by the SWFI and FORT Global teams. I am looking forward to further collaborations and engagements that will continue to propel the discourse on sustainable finance to greater heights.

With warmest regards and heartfelt appreciation,
